

# GoDEX T-Series Label Rewinders

# The Label Rewinder Everyone Can Use

When your business relies on labels, efficiency isn't optional—it's essential. Take the hassle out of label roll management with **GoDEX T-Series Label Rewinders**, designed to simplify and streamline the way you handle label rolls, ensuring label production stays organized, consistent, and runs at full speed.

Unlike basic rewinders that limit your setup, the T-Series features a fully adjustable idler arm that allows labels to be rewound from either side of the printer. Whether you need inside or outside roll orientation, our rewinders adapt seamlessly to your workflow. That flexibility makes it the perfect companion not only for GoDEX printers but also for virtually any brand of label printer.

From color printers to coreless setups, it provides everything you need for a smoother, more reliable labeling process.

## Key Benefits of the GoDEX T-Series Rewinders:

- **Universal Compatibility** – Works seamlessly with all major printer brands, not just GoDEX.
- **Flexible Roll Handling** – Rewind labels inside or outside, left or right, based on your needs.
- **Durable Design** – Built tough for long-term use, with a professional, stylish look.
- **Smart Monitoring** – LED indicator light provides real-time operation status.
- **Adaptable to Your Setup** – Supports 1" (25.2–25.6 mm), 1.5" (40–40.6 mm), and 3" (76–76.6 mm) cores; includes both core and coreless kits.
- **User-Friendly Controls** – Variable speed dial and automatic arm make adjustments simple.
- **Heavy-Duty Capacity** – Handles large, heavy rolls with stability and precision.
- **Versatile Options** – Available in versions tailored for color printers and specialized applications.

With the GoDEX T-Series you gain a tool that eliminates bottlenecks, reduces downtime, and gives your team the confidence to focus on productivity, not troubleshooting.

## T10 / T20 / T30 Label Rewinder Family

The GoDEX T-Series offers multiple models to fit the unique demands of different labeling environments. Whether you need speed, wider label compatibility, or heavy-duty roll capacity, the T10, T20, and T30 models give you options designed to match your workflow.

### T10 Label Rewinder

A compact, versatile choice for everyday labeling needs.

#### Key Features:

- Speed Capabilities: 14 ips
- Label Roll Maximum: 8" OD
- Max Label Width: 4.72"
- Label Roll Weight: 11 lbs
- ID Cores: 1", 1.5" and 3"

### T20 Label Rewinder

Ideal for handling a wider range of label sizes while maintaining high speed.

#### Key Features:

- Speed capabilities: 14 ips
- Label Roll Maximum: 6" OD
- Max Label Width: 7"
- Label Roll Weight: 11 lbs
- ID Cores (Coreless): 1", 1.5" and 3"

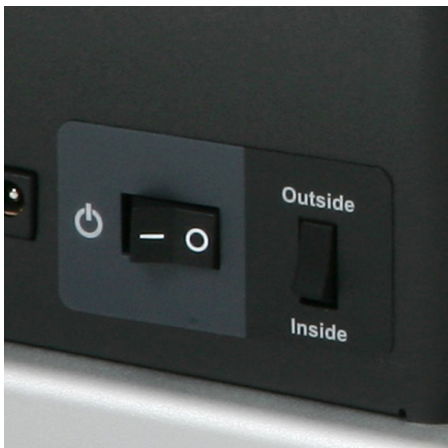

### T30 Label Rewinder

Engineered for larger, heavier rolls and extra-wide labels.

#### Key Features:

- Speed capabilities: 6 ips
- Label Roll Maximum: 4" OD
- Max Label Width: 8.4"
- Label Roll Weight: 12 lbs
- ID Cores: 1", 1.5" and 3"

## T10C / T20C / T30C - Re-/Unwinder for Color Printers

GoDEX color label rewinders are designed to work seamlessly with most color label printers. Ideal for desktop printers, our compact rewinders make small label handling simple and efficient.

- **6-Inch Rewinder** – perfect for drum labels, pallet labeling, and logistics applications.
- **8-Inch Rewinder** – suited for preprinted hazardous material labels, certification labels, and equipment or machinery labeling.

## Enhance Printer Performance with GoDEX Rewinders

Pair GoDEX Rewinders with these featured printers to maximize efficiency, maintain smooth label output, and handle high-volume applications with ease. Designed to integrate seamlessly, GoDEX rewinders help keep your workflow running at peak performance.

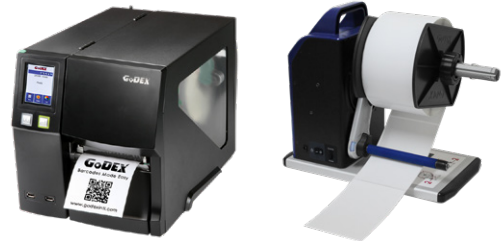

### G500

The G500 is the ultimate thermal transfer workhorse printer, designed for high-volume printing with a 1" core and 300-meter ribbon capacity. Featuring an adjustable sensor, it offers versatility to meet diverse printing needs. The Twin-Sensor technology allows compatibility with a broad range of labels.

#### Key Features:

- Print Width: 4"
- Print Speed: 5 ips / 4 ips
- DPI Availability: 203 dpi, 300 dpi
- Center Justified Printing
- Direct Thermal & Thermal Transfer

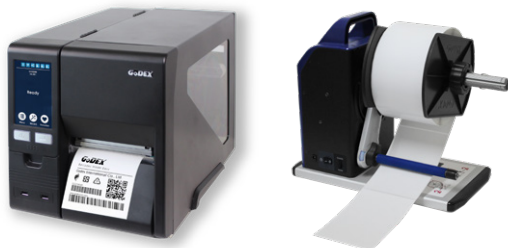

### ZX1200Xi+

The high-speed ZX1200Xi+ series is designed to elevate both your performance and productivity. Its heavy-duty print mechanism, flexible software, multiple interfaces, and comprehensive accessories make it ideal for meeting your most demanding applications.

#### Key Features:

- Print Width: 4"
- Print Speed: Up to 14 ips
- DPI Availability: 203 dpi, 300 dpi
- Left Justified Printing
- Thermal Transfer / Direct Thermal

### GX4200i

The GX4000i printer series delivers razor-sharp results at ultra-high speeds and features an intuitive 5-inch video touch screen with built-in video-assisted guidance. Integrators can personalize videos as needed, enhancing user experience and support.

#### Key Features:

- Print Width: 4"
- Print Speed: 16 ips / 12 ips / 8 ips
- DPI Availability: 203 dpi / 300 dpi / 600 dpi
- Left Justified Printing
- LCD: 5" Color Video Touch Screen

### HD830i+

The HD830i+ is a robust 8-inch wide printer designed for demanding extra-wide label format printing. It is equipped with adjustable media detectors, and its flexibility allows adaptive technology to control print quality. The printer can be equipped with a cutter or various other interfaces to facilitate job workflow.

#### Key Features:

- Print Width: 8"
- Print Speed: 4 ips
- DPI Availability: 300 dpi
- Center Justified Printing
- LCD: 3.2" Color Touch Screen
